SUMMARY

Detail-oriented Information Systems Graduate with hands-on experience in full-stack web development, IT infrastructure support, and business process automation. Skilled in developing responsive web applications, REST APIs, database management, and secure authentication systems using React, FastAPI, Vue.js, and SQL databases. Experienced in manufacturing operations with strong data accuracy, technical documentation, and problem-solving skills. Seeking opportunities as an Associate Software Engineer, Full-Stack Developer, QA Engineer, or IT Support Specialist.

WORK EXPERIENCE

PT Yamaha Motor Electronics Indonesia – Cibitung, Indonesia

Operator Production

Mei 2017 – Nov 2018

- **Entered** daily production data into the internal inventory system with high accuracy and strict adherence to deadlines.
- **Documented** component inspection results (OK/NG) into structured daily reports using Microsoft Excel (Pivot Table, VLOOKUP/XLOOKUP, IF formulas).
- **Executed** double-check validation procedures on inventory data prior to Quality Control (QC) submission, successfully reducing potential data entry errors by 10%.
- **Ensured** strict compliance with documentation standards and maintained highly organized archives for daily operational logs.

EDUCATION

Universitas Bina Sarana Informatika – Bekasi, Indonesia

Diploma Three (D3) in Information Systems

Sep 2018 – Aug 2021

- **GPA:** 3.01 / 4.00
- **Core Coursework:** Database Systems, Web Programming, Network Fundamentals, System Analysis & Design.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), Python, PHP, SQL.

Frontend: React.js, React 19, Vue.js 3, HTML5, CSS3, Tailwind CSS

Backend: FastAPI, Express.js, REST API, JWT Authentication

Databases: MySQL, PostgreSQL, SQLite.

Tools: Git, GitHub, VS Code, Postman

Testing: API Testing, Functional Testing, Debugging, Test Case Documentation

Deployment & Cloud: Vercel, Cloud Deployment, Environment Configuration

IT Support & Networking: Hardware/Software Troubleshooting, OS Installation (Windows/Linux), TCP/IP, LAN/WAN Setup, Basic Network Security.

Data & Productivity: Advanced Excel & Google Sheets, Data Entry & Verification, Documentation.

Soft Skills: Problem Solving, Analytical Thinking, Technical Documentation, Communication, Team Collaboration, Time Management, Adaptability, Continuous Learning, Accountability.

TECHNICAL PROJECTS

WarungKita POS (Point of Sale & Inventory Management)

React 19, FastAPI, SQLite

Developed a full-stack POS application to manage transactions, products, inventory, and user roles for small businesses. Implemented JWT authentication and role-based access control (RBAC) to secure application access. Designed RESTful APIs using FastAPI and integrated database operations with SQLite.

LANGUAGES & ADDITIONAL INFORMATION

- **Languages:** Indonesian (Native), English (Intermediate - proficient in technical documentation, reading, and writing).
- **Availability:** Immediately available for Onsite (Bekasi/Jakarta), Hybrid, or Remote roles.
